

Announcement

Senior VP, CFO of AMRI Global informed us that in accordance with their previously announced intent their subsidiary company, AMRI Hungary Zrt has filed for voluntary winding up with the Court of Registry.

AMRI Hungary currently leases approximately 7 percent of rentable space at Graphisoft Park. As a result of the voluntary winding up the rental fees for the remaining lease period of nearly 7 years are due at the amount of 4,922,808 EUR.

According to Graphisoft Park management, the amount is recoverable from the AMRI group.

The space vacated by AMRI Hungary will be leased to new tenants, and net revenues derived thereof will be used to reduce AMRI's obligations.
