

**Information**  
**on initiation of judicial review against final judgment**

Graphisoft Park SE hereby informs its shareholders, that the Pest County Government Office submitted a so-called motion for review against the final administrative judgment made on December 12, 2019, as extraordinary legal remedy by making a reference to violation of law.

As the shareholders were informed earlier, the judgement abrogated the order of Pest County Government Office granting an extension to the deadline for environmental remediation on the northern development area and instructed the government office to conduct a new proceeding.

Submission of the motion for review has no suspensory effect on the judgement.
